

2024 Editorial and Advertising Data

A powerful medium to reach your target market

Market Leader

Launched in 2008, EuroBulkSystems is internationally recognised as Europe's foremost information source for the Bulk Processing Industry. Every issue, the journal reports on the handling, processing and distribution of powders, granulates, flakes and pellets – as well as, to a lesser extent, liquids and pastes.

Read by Decision-Makers

Circulated to over 9000 readers - primarily users of bulk processing systems - throughout Europe, EuroBulkSystems reaches your target market directly, powerfully and cost-effectively.

Nearly 80% of its readers work in the chemical, food, animal feed, pharmaceutical, plastics and high-grade industrial mineral industries, all of which share a need to handle and process valuable and often 'difficult' materials with care, precision and often under carefully monitored hygiene conditions.

Quality Editorial

EuroBulkSystems attaches high priority to accurate and objective reporting; and to researching and compiling articles. Its experienced editorial team writes with discernment and clarity on a wide range of subjects dealing with bulk handling, processing and transport; and related measurement, control and safety issues.

Dynamic Website + Weekly News = Unique Branding

Advertisers in EuroBulkSystems can also benefit from headline exposure on the www.eurobulksystems.com website. Logos, weblinks and banner advertisements are prominently displayed – an unrivalled chance to boost your company's brand. Sponsorship opportunities are also available.
